SUMMARY

Dynamic Professional — ReactJS Development and Automation Testing Professional. Skilled in ReactJS development and automation testing with 2.5 years of experience, excelling in **designing and maintaining high-performance ReactJS applications**. Proficient in **crafting efficient, scalable code** and **automating test scripts** to ensure seamless deployments. Demonstrated success in **improving software quality, streamlining testing processes**, and driving **Agile project delivery**. Strong **problem-solving skills, attention to detail**, and a passion for delivering **innovative, user-centric solutions**.

TECHNICAL SKILLS

Languages: JavaScript + ES6, Typescript, Java

Markup and Styling: HTML5, CSS3, Tailwind CSS, SASS/SCSS

Libraries/Frameworks: ReactJS, NextJS, Redux Tool Kit, React-Router, NodeJS, Webpack

Testing Framework/Tools: Jest, Postman, Selenium

DBMS: MySQL, MongoDB

Tools and IDE: VS Code, Eclipse

Version Control: GitHub

EXPERIENCE

Tata Consultancy Services

02 2023 – Present

Systems Engineer

Noida, Uttar Pradesh

- Develop and maintain responsive web applications using ReactJS, enhancing user engagement.
- Automate testing with Jest, Selenium, and Postman, streamlining testing processes.
- Collaborate with teams to deliver high-quality software, aligning with Agile methodologies.
- Execute unit, integration, and regression testing, reducing post-release issues.
- Enhance automation frameworks, accelerating testing cycles and improving software updates.
- Troubleshoot and resolve complex issues in development and testing phases, ensuring smooth software releases.
- Implement and maintain effective test cases to ensure comprehensive coverage.

Foray Software Private Limited

12 2021 – 01 2023

Software Test Engineer

Bangalore, Karnataka

- Developed and executed automation test scripts to ensure the quality and reliability of software products.
- Analyzed test results and reported defects using issue tracking tools like Jira, ensuring timely resolution.
- Implemented best practices for test automation, including continuous integration and version control with tools like Git.

Imtac India Private Limited

09 2020 – 12 2021

Associate

Noida, Uttar Pradesh

- Project initiation and meeting with clients for project roll out.
- Coordinated project schedule, resources, equipment and information.
- Ensured all documentation is maintained properly.

Innodata India Private Limited

07 2020 – 10 2020

Associate

Noida, Uttar Pradesh

- Assisted in developing project plans and timelines for timely milestone completion.
- Undertook project task as required and provided administrative support as needed.
- Ensured all documentation was maintained properly.

- Inspected, verified and validated the parameters of product stages.
- Initiated and implemented improvement actions.
- Worked on Root Cause Analysis (RCA) for any non-conformity in product and process.

EDUCATION

Dayalbagh Educational Institute, Deemed University

07 2013 – 06 2017

Bachelor of Technology (B.Tech) in Electrical Engineering - **CGPA - 7.18**

Agra, Uttar Pradesh

REI Intermediate College

07 2011 – 06 2013

Higher Secondary Education (12th) - **Percentage - 89.8%**

Agra, Uttar Pradesh

REI Intermediate College

07 2010 – 06 2011

Matriculation (10th) - **Percentage - 78%**

Agra, Uttar Pradesh

PROJECTS

Portfolio [↗](#) | Technology Used: React JS

- Developed a personal portfolio website using ReactJS to showcase my projects, skills, and experience. The website features a modern, responsive design implemented with CSS3 and SASS/SCSS, ensuring compatibility across devices. Utilized React Router for dynamic routing and content rendering, and created reusable React components for detailed project displays. Integrated contact forms with validation using React Hooks. Technologies used include ReactJS, JavaScript (ES6+), HTML5, CSS3, SASS/SCSS, React Router.

Binary Translator [↗](#) | Technology Used: React JS

- I developed a React application focused on binary operations and conversions. The application serves as a versatile binary calculator, enabling users to perform various conversions seamlessly. It includes functionalities such as converting decimal numbers to binary and hexadecimal, converting binary to text, hexadecimal, and decimal, as well as converting text to binary and ASCII. This project demonstrates my proficiency in React development and my ability to create practical tools for specific tasks.

X-Cart [↗](#) | Technology Stack Used: MERN Stack

- I spearheaded the development of a dynamic MERN (MongoDB, Express.js, React.js, Node.js) e-commerce web application, enabling users to seamlessly search, filter, and add products to their cart. Leveraging Redux Toolkit for efficient state management, I ensured a smooth user experience, particularly for logged-in users who could securely add items to their cart. The project involved implementing multiple APIs for CRUD operations, ensuring robust functionality and data management. This hands-on experience equipped me with comprehensive skills in full-stack development, frontend design, backend integration, and state management, enhancing my proficiency in modern web development technologies.

CERTIFICATION

- Microsoft Azure Fundamentals (AZ-900)

AWARDS AND RECOGNITION

- On the Spot (Team) Award
- On the Spot Award
- Best Team Award
